ADVISING GUIDE

ORGANIZATIONAL & COMMUNITY LEADERSHIP MAJOR (OCL) Fall 2012 to Fall 2015

Additional information that is good to know:

- Only three credits from any combination of MATH 114 and 115 can count toward graduation.
- ECON 101 requires MATH 114 or 115 as a co-requisite.
- If you transfer in ECON 101 as ECON 166T, you won't be able to take ECON 103 at UD. (ECON 101 is a prerequisite of ECON 103.) So if you transfer in ECON 101 as ECON 166T, you will need to take an ECON 103 equivalent at an approved community college and transfer that course into UD. Check the Registrar's website for information about transfer courses.
- To fulfill the CAS and University breadth requirements, you need at least one course in each of the four CAS Group areas to be other than a LEAD course. Example: LEAD 100, 200 and 300 all fit Group C Breadth. However, you need at least one course outside LEAD to show your "breadth" in Group C.

Second Statistical Methods Course substitution examples:

- If you take SOCI 201, then you can ask your advisor if he/she will approve SOCI 301 as a sub for MATH 202 if you so desire.
- If you were a communications interest major and took COMM 301, then you can ask your advisor if he/she will approve COM 301 as a sub for MATH 202 if you so desire.
- You can ask your advisor if he/she will approve UAPP 333 as a sub for MATH 202 if you so desire. UAPP 333 is normally offered only in spring and is offered infrequently.
- DO NOT assume that your advisor will approve a substitution just because you "already" took the course. You must ask your instructor's permission to have an approved substitution.
- MATH 201 is a prerequisite for MATH 202.
- You can't take both MATH 201 and STAT 200 – only one course counts. DO NOT TAKE STAT 200.
- MATH 201 fits the Group D Breadth.

Double dip options:

- Second writing, DLE and multicultural courses can all count for another requirement.

Second writing course and DLE courses:

Make sure the specific section you are taking is designated as a second writing course and or a DLE course. Check the Course Search page because each semester may be different. Don't just select a course from the list of courses that MAY be second writing or DLE – make sure your section is listed as fulfilling the requirement you need. Make sure you take the second writing course after you have reached 60 credits.

Discovery Learning Experience (DLE) requirement:

You need to take 6 credits of DLE.

- LEAD 490 is required in your senior year, and will provide you with 3 DLE credits.
- Going on a UD study abroad gives you the DLE – IF you complete the online study abroad evaluation.
- LEAD 340 Leadership Internship is a DLE course. You register for the course at the same time you are completing the internship. An internship can be paid or unpaid. The course involves academic coursework related to the internship you are completing. You must have the permission of the instructor to enroll in LEAD 340.
- Registering for an Independent study through the online Independent study form will provide you with 3 credits of DLE.
- Taking any course designated as a DLE will also fulfill the requirement. See the Course Search webpage each semester.

Random info:

- LEAD 400 is generally offered in the fall.
- LEAD 411 is generally offered in the spring.
- Take PHIL 202 and PHIL 105 as soon as you see they are offered. They are the most difficult courses to get into, so make sure you fit your other courses around them.
- If you can't get into one of the LEAD required courses but there are seats showing as available, contact our administrative staff at 831-8711 to receive assistance.
