Directions to IPA's Lewes Office on the Hugh R. Sharp Campus of the University of Delaware

From I-95 and points North:

Take Exit 4a onto Del. Rt. 1 South.

Follow Del. Rt. 1 South past Milford, Del. Approximately 6 miles south of the intersection of Del. Rt. 1 and Del. Rt. 16, you will see a small blue sign "UDEL" in the median strip pointing to the University. Turn left across the northbound lane of Del. Rt. 1 and stop at the stop sign facing Nassau Orchard. Turn right at the stop sign and proceed for about .25 mile, and then turn left onto New Road. Continue straight on New Road until you come to a "T" at Pilottown Road. Take a left onto Pilottown Road and proceed about 1 mile (past Roosevelt Inlet) until you see the Pollution Ecology Lab on your right. IPA's office is in Room 111.

From the South:

Take US Rt. 113 to Georgetown. In Georgetown, you'll turn onto Del. Rt. 9 heading east toward Lewes. Just before Lewes, you'll cross Del. Rt. 1. After crossing Del. Rt. 1, you'll proceed for about .5 mile and then take a left turn (just before Savannah Road). After about 1 mile, you'll come to New Road. Turn right onto New Road. Continue straight on New Road until you come to a "T" at Pilottown Road. Take a left onto Pilottown Road and proceed about 1 mile (past Roosevelt Inlet) until you see the Pollution Ecology Lab on your right. IPA's office is in Room 111.

From the South, via US Rt. 13:

Travel to the intersection of US Rt. 13 and Del. Rt. 9 in Laurel, Del. Turn right onto Rt. 9 and follow to Lewes. After crossing Del. Rt. 1, you'll proceed for about .5 mile and then take a left turn (just before Savannah Road). After about 1 mile, you'll come to New Road. Turn right onto New Road. Continue straight on New Road until you come to a "T" at Pilottown Road. Take a left onto Pilottown Road and proceed about 1 mile (past Roosevelt Inlet) until you see the Pollution Ecology Lab on your right. IPA's office is in Room 111.
